Biolab: Competence, facilities, projects, results

Valentina Benfenati

ISOF-CNR

valentina.benfenati@isof.cnr.it

In the presentation I will give an overview of the expertise and know-how of our group on neurophysiology, cellular and molecular biology and how they have been applied to the study of the interaction of neural cells with innovative materials, interfaces and devices. I will also describe the available facilities and the collaborative national and international projects grants and initiatives we are leading or in which we are involved. Main results obtained within these frames will be presented.

Tuesday 28 February 2017, 14:30

ISOF 12 – Meeting Room (1st floor)

CNR Research Area

Via Gobetti 101, Bologna
