

## Organic materials design: from molecular semiconductors to polymeric adsorbants

Manuela Melucci  
ISOF-CNR

[manuela.melucci@isof.cnr.it](mailto:manuela.melucci@isof.cnr.it)

In this talk I will present a brief overview on combined molecular tailoring and surface functionalization approaches developed by our group for the preparation of functional materials spanning from molecular semiconductors to 2D and 3D hybrid structures. Recent achievements on the modification of polymeric filtration membranes for biomedical and environmental remediation applications, will be also presented.

**Tuesday 6 June 2017, 14:30**  
ISOF 12 – Meeting Room (1<sup>st</sup> floor)  
CNR Research Area  
Via Gobetti 101, Bologna
